Software Engineering undergraduate with six months of industry internship experience in web application development, UI/UX design, and software quality assurance. Experienced in React, TypeScript, JavaScript, and modern frontend technologies, with hands-on experience contributing to a full-stack MERN application. Familiar with Node.js, Express.js, MongoDB, REST APIs, Git, and responsive web design. Eager to contribute to a software engineering team, solve practical problems, and continuously develop technical skills.

PROFESSIONAL EXPERIENCE

Software Engineer Intern

All In One Holdings (PVT) Ltd - Kandy *May 2025 - Nov 2025*

- Developed responsive and reusable UI components using **React, TypeScript, Vite,** and **Tailwind CSS** across multiple client projects.
- Contributed to frontend development and website revamp projects, including **Aluviharaya, AIOH Website Revamp,** and **Mahinda Panagoda Funeral Directors**.
- Designed UI/UX layouts and interfaces using **Figma**, focusing on usability and visual consistency.
- Contributed to LeaveNest, a **MERN-stack** employee leaves management system supporting leave applications, approval workflows, and leave balance tracking.
- Participated in requirement gathering, project planning, software quality assurance, and manual testing activities.
- Used Git for version control and collaborated with team members on project development and technical documentation.

SKILLS

Technical Skills: JavaScript, TypeScript, React.js, Node.js, Express.js, MongoDB, MySQL, SQL, HTML5, CSS3, Tailwind CSS, Git, GitHub, Postman, WordPress, Java, Python, PHP

Professional Skills: Teamwork and Collaboration, Communication, Problem-Solving, Time Management, Adaptability

EDUCATION

Bachelor of Software Engineering (Hons) - Undergraduate

The Open University of Sri Lanka *Sep 2022 - Present*

PROJECTS

LeaveNest - Employee Leave Management System

MongoDB | Express.js | React | Node.js | TypeScript | Tailwind CSS

- Built a full-stack leave management system with secure authentication and role-based access control. Designed MongoDB schemas, developed structured REST APIs, and implemented leave approval workflows with balance tracking logic.

Portfolio Website
React.js | Vite | Tailwind CSS | EmailJS

- Designed and developed a responsive personal portfolio website showcasing projects, skills, and experience. Implemented EmailJS for contact functionality and focused on modern UI design and performance optimization.

OpenConnect - Frontend Developer
React | TypeScript | Vite | Shadcn UI

- Contributed to frontend development of a university group project by building responsive and reusable UI components. Ensured smooth API integration and improved overall user interface consistency.

BOC B-App Redesign - UI/UX Project
Figma | Adobe Photoshop

- Redesigned a mobile banking application interface based on user feedback analysis. Developed structured wireframes and high-fidelity prototypes to enhance usability and visual consistency.

H2Open App - UI/UX Design
Figma | Adobe Illustrator | Adobe Photoshop

- Designed user interfaces for a research-based university project, focusing on intuitive navigation, layout clarity, and user-centered design principles.

ITC Institute
HTML | CSS | JavaScript

- Developed a responsive institutional website highlighting courses and services, implementing clean layout structures and mobile-friendly design practices.

AnRich Clothing - E-Commerce Website
WordPress | WooCommerce

- Developed a responsive e-commerce website using WordPress and WooCommerce, customizing design and store functionality based on client requirements.
